Secretary of State, John Hay, comes a law. delivered an eloquent eulogy, in the House of Representatives, Feb. 27, upon the life and public service of the late President, William McKinley.

The senate has passed the Hansbrough Irrigation bill without divission. This bill if it passes the house as its friends claims it will, will at last, give the west justice. The President 16 in favor of the bill and it will receive his signature as soon as it reaches the White House.

What is the trouble with the Santa Fe New Mexican? In work. ing to have the D. & R. G. railroad build into Taos from Tres Piedras instead of Ft. Garland, the New Mexican is working against the best interest of Taos county in is to run submarine boats on cables strong 50 feet below the surface of the channel between England and the channel between England and the channel between England and the surface of the channel between England and the of Taos county in general is to'the interest of New Mexico. The rout from Ft. Garland is the logical rout and will increase the earning of Rio Grande railroad to a greater extent than a road from any other point on Rio Grande to the Taos valley. The outlook for a healthy growth for Northern Taos county was never brighter than the present time and the railroad that build through this seetion, will be of great benefit to the in recent years thousands of dollars whole of this county.

The new camp of Twining which is situated about eight or ten miles from Red River and is also, in the same mining belt as this state a thriving center. district, is coming to the front.

The Fraser Copper Mountain Company is building one of the Stationery, largest reduction works in the territory of New Mexico, and the apring. When completed it will employ in its mines and mill over 200 men. This alone, will place Taos county before the world as a New Plates Throughout great mining section. There are 25,000 New Words a number of other properties in Northern Taos county, with proper devlopment, will equal this famous property. All that is need ed is capital and the Prosecuros is pleased to note that capital is not only looking this way but is investing in our proporties. This section can satisfy almost any mining man as we have copper. gold, silver and lead properties that only needs the magic touch of the miner's pick and drift well directed. to make the investor a fortune,
